

**DRAFTER'S NOTE**  
**FROM THE**  
**LEGISLATIVE REFERENCE BUREAU**

LRB-1320/1dn  
RNK:kjf:wnw

February 23, 2007

This is a redraft, in bill draft form, of Senate Substitute Amendment 1 to 2005 Assembly Bill 850 and incorporates Senate Amendment 1 to Senate Substitute Amendment 1. As instructed, this version deletes the provisions in Senate Substitute Amendment 1 that changed the motorboat gas tax formula and that increased the appropriation under s. 20.370 (4) (aq).

Please note that I made some very minor changes in the draft that improve readability. The changes are not substantive. Please look at the change in proposed s. 30.12 (1k) (cm) (intro.). In Senate Substitute Amendment 1, that provision prohibited DNR, with certain exceptions, from taking enforcement action against a riparian owner "for any of the following." The provision then listed the structures regarding which enforcement action would be prohibited. I have inserted the word "placement" in that provision because I think that the prohibition against enforcement action is intended to apply to the placement of the structure and not to the structure itself. I think this change is minor but please take a look at it to ensure that it meets your intent.

Please feel free to contact me if you have any questions with regard to this draft.
